

# Vom FALL BROOK RUN

25 Church Rd  
Livingston Manor, New York  
12758

I, \_\_\_\_\_ have agreed to purchase a, female/ male/ either, (please circle B-Litter or C-Litter) Kleine (Small) Munsterlander (KIM) pup from Mark Bulvanoski of the B-Litter breeding of Max and Ea, C-Litter breeding of Dux and Leica. The agreed upon purchase price is \$1200. I have enclosed a deposit of \$500 to reserve a pup. In the event a pup is not available the deposit will be refunded. If you have circled 'either' you will receive a puppy of the sex that is available. The balance of \$700 is due via US post which is post-marked within one week after the purchaser has been notified by email.

Leica vom Forstweg 090061KIM

I understand that Mark Bulvanoski has selected two healthy KIM who are approved for breeding by the Kleine Munsterlander- Group North America and the parent club, KIM-D (Germany). He has tried to select a sire and dam with compatible pedigrees for the purpose of developing strong hunting traits, while at the same time trying to avoid hereditary health problems.

I understand that I must supply to the breeder's satisfaction a clear photograph of a side view profile of my dog at approximately 1 year of age.

I am aware that my puppy's home environment can contribute both positively and negatively to his/her health. I will have my puppy checked by a certified veterinarian within 7 days after the pup is received by the new owner. If the pup is found to be in poor health, he/she may be returned for a full refund. I will provide a written evaluation from the licensed veterinarian. I will also be responsible for all veterinarian expenses and any cost of returning the pup. If Mark Bulvanoski decides he needs an additional evaluation, I will also pay that expense.

Mark Bulvanoski has informed me that if my KIM is to have a health warranty I must:

1. Have annual certified veterinarian checks and follow their prescribed health protocol.
2. Feed a quality dog food and keep the dog in good weight. I understand that excessive

weight may significantly affect my pup's health and void this contract.

3. Provide the pup with a safe environment and not exercise a pup or young dog under two years of age, excessively.

Mark Bulvanoski has informed me that he encourages me to check my KIM's hips for hip dysplasia between 12-15 months of age. Hip extended x-rays must be sent to TG Verlag in Germany for evaluation. There is evidence that early spay/neutering leads to abnormal growth patterns in young dogs. If you choose to spay/neuter your dog before 12 months of age, hips will not be guaranteed.

The KIM-D Solidarity Fund provides the following health guarantee:

**Compensation:** If a KIM becomes ill from epilepsy until the end of the 5th year of life, or is evaluated with hip dysplasia (HD medium and severe), the owner of the afflicted dog can receive a one-time financial aid payment from the solidarity fund in the amount of 500 Euro.

**Requirements:** The aid requires an application to the Office of Breed Registry of KIM-D, to which are attached, along with the certificate, the original pedigree of the afflicted KIM and a certificate issued by a veterinarian, which shows the diagnosis, and in the case of epilepsy, the need for treatment, surgery or euthanasia. If the diagnosis is HD medium or severe, an X-ray of the hip for the HD or HQ evaluation is to be attached, if this has not been done yet.

The identity of the dog must be checked and certified by the veterinarian by means of a tattoo or chip number and pedigree. It is possible that more evidence or blood samples must be submitted later. The Breed Commission in consultation with the Club Breed Warden and the Breed Book Registrar decides on the approval of the application.

**Payment:** If the application was approved, the illness and breeding ban will be entered on the pedigree of the afflicted dog and payment to the owner of the dog processed.

Mark Bulvanoski should be notified immediately of either of the above health defects. He would also appreciate being notified of any health related impairments, as the health of his breeding program depends on the acknowledgement of any significant health related issues.

In the event I am unable to provide a proper home for my KIM, I will notify Mark Bulvanoski immediately. Mark Bulvanoski has first rights to my KIM. If my KIM needs to be returned to Mark Bulvanoski I understand it will be at my expense.

Mark Bulvanoski will register my pup with Verband fur Kleine Munsterlander e.V. (KIM-D) and will microchip my pup. Mark Bulvanoski includes with this purchase membership in KIM-Group North America if the buyer agrees to test his dog in VJP test sponsored by the JGHV or an affiliated breed club.

### **SHIPPING:**

**ALL SHIPPING EXPENSES OF YOUR PUPPY MUST BE PAID IN FULL PRIOR TO SHIPPING. SHIPPING IS F.O.B. NEW YORK. Liabilities to the breeder**

cease at the first stop after the plane leaves the airport. The pup is insured for its full monetary value on a flight to the destination of the pup's pick up chosen by the owner.

CRATES, AIRFARE, VETERINARY CHECK UP TO FLY, TIME SPENT FOR DEPARTURE ARE MOST OF THE EXPENSES.

By signing below, I agree that I have read and understand the above agreement and accept these terms of agreement.

To complete this contract please make two copies sign both and send them with the deposit payable to Mark Bulvanoski at the address listed below. Your copy will be signed and the completed contract will be sent to you.
